

# Brief statement

**Gaëtan BOURAGA.**

## **Electronic and Broadband Network Engineer**

- Internet Engineering
- Broadband network Engineering

*Since 1995, I work in the area of the Internet, from construction of networks infrastructures for operators to organization of the management of Internet resources as well as the implementation of NIC.*

*I also participated in several projects at the international level on the development of the Internet in Africa.*

*In 2005, I became AfriNIC's board member*

*From 2005 to 2006 I initiated bilateral trade between NIC Cote d'Ivoire and NIC Gabon.*

*In late 2007 I initiated the project of setting up the Global Internet Exchange Point for the countries of the Gulf of Guinea namely, Angola, DRC, RC, Gabon, Cameroon, Equatorial Guinea, Nigeria, Sao Tome and Principe..*

*I will be the Gabonese governmental technical adviser to the Governmental Advisory Committee of ICANN for the period from 2008 to 2012.*

*I am also member of the ccNSO, AFTLD, College international du NIC France and technical contact of ccTLDs .ga.*

*The implementation of IPv6, the organization of NICs for the management of ccTLDs, IDN and the issues of Internet governance are for me the future African's challenges in sector of the Internet for the next five years*

*By this application, I would like to give once again my modest contribution to the development of the Internet in Africa.*
